

Pre-assembly of loose-tube cable

Multimode, all current connector types

Description

The pre-assembly of loose-tube cables from Datwyler enables customers to work with ready-to-install fibre optic multiple cables (trunks) in the requested lengths and types.

The trunks are made to customer specifications under laboratory conditions.

Pre-assembled trunks allow for cost saving and simple installations without expensive fibre optic equipment.

Note

Attention: Please order the loose tube cable separately - according to your individual needs!

Versions

Material number	Product	Number of Fibres	Connector type side A	Connector type side B	Weight [kg]
41660100ZY	Trunk termination Multimode	4	LC/PC	LC/PC	1 kg
41501800ZY	Trunk termination Multimode	6	LC/PC	LC/PC	1 kg
41502800ZY	Trunk termination Multimode	8	LC/PC	LC/PC	1 kg
41501900ZY	Trunk termination Multimode	12	LC/PC	LC/PC	1 kg
