

Fuse module

for connection / terminal box VAD ... E30-E90

Add-on fuse element M25/2A

Installation fuse element

Description

AC 230V fuse holder 5 x 20 mm with 2A fuse.

The built-in fuse element is screwed into 2 two steatite through clamps.

The add-on fuse element is inserted into the M25 cable gland of the box.

Application

Branches in cable systems with integrated functional integrity according to DIN 4102-12 must be individually fused so that the short circuit of one consumer/group cannot affect the other consumers/groups. For this reason, feeders must have an outgoing fuse.

Versions

Material number	Product	Outer dimensions	Weight [kg]	Packing unit
66030400ZY	Add-on fuse element for VAD E30-E90	60 mm x 40 mm	0.01 kg	1 pc.
66030300ZY	Installation fuse element for VAD E30-E90	40 mm x 20 mm x 20 mm	0.01 kg	1 pc.
