

UP-K Faceplate PS-TERA 2x duct mounted

for 2 modules PS-TERA 4P, angled

- 1 Faceplate for 2 modules PS-TERA, angled
2 Example for faceplate with 2 modules PS-TERA and cover frame

Description

Modular faceplate PS-TERA 2x for duct mounting (UP-K).
For the installation of 2 modules PS-TERA with angled outlet.
The modules can be easily fitted into the faceplate.
Inscription field with transparent cover.
Delivery without modules.

Application

The modules PS-TERA 4P enable the installation of multimedia cabling systems up to Class FA.
At each PS-TERA 4P module the connected 4 pairs can be patched individually, e.g. for transmission of TV, video, data or telephone. Thus, the single pairs in one data cable can be simultaneously used for different applications. **NOTE:**
The PS-TERA modules can not only be used in this faceplate but also in other Datwyler faceplates, patch panels and floor box solutions (please see our data sheets).
