

RJ45 patch cords Cat.6_A (IEC) Industrial PUR

500 MHz, shielded, wiring 1:1

Standard version

Description

Datwyler's patch cords and connection cables Industrial PUR Cat.6A are especially suitable for the harsh, industrial environment. The cable type CU 7702 4P flex Industrial PUR meets additional requirements of the industrial environment like oil resistance and robustness. Shielded patch cords and connection cables with shielded RJ45 plug on both ends, fitted with an anti-snag boot with latch protection. The cable CU 7702 flex 4P Industrial PUR (Cat.7) offers excellent Next and impedance values due to the individually foil screened pairs (PiMF). Due to the overall copper braid, the patch cables have an excellent screen performance and are highly flexible. The patch cords meet all the requirements of Category 6A (IEC) and the limit values stipulated for Class EA cabling links (Channels) for 10GBase-T applications. Customised adjustments (anti-snag boot, termination, label) are available at short notice.

Costruzione

Outer sheath colour	arancia
Outer sheath material	PUR

Proprietà generali

Type of connector connection 1	RJ45, anti-snag boot
Type of connector connection 2	RJ45, anti-snag boot

Proprietà elettriche

EMC	shielded
Gbit/s	Up to 10 Gbit/s

Proprietà meccaniche

AWG	26
-----	----

Standards

Cat./Class	Cat.6 _A / Class E _A
Oil resistance	IEC 60811-404, EN 60811-2-1
PoE	IEEE 802.3at
Zero halogen no corrosive gases	IEC 60754-1/-2, EN 60754-1/-2, VDE 0482-754-1/-2
Flame Propagation	EN 60332-1-2, IEC 60332-1-2, VDE 0482-332-1-2
